

# Finding things in this Knowledge Base

- **Search**

- See the BookStack User Documentation information on advanced searching:  
<https://www.bookstackapp.com/docs/user/searching/>

- **Browsing**

- The home page shows the most recently updated pages.
- Clicking on Books will show all the topics there are pages about. Clicking a book will show all the pages and chapters in that book.
- Clicking on a contributor's name will show all the pages added by that person.
- Clicking on a tag will show all the pages with that tag.

- **Search Strategies**

- Think of a word or phrase that would have to be in the answer to your question.
- Think of synonyms to those words.
- Think of a person or department that might have answered that question.
- Think of what keywords you would have chosen if you were tagging that question.
