Where can I buy that super efficient electronic stapler that is at SSC?

Lots of people ask about our stapler at SSC. It's a black Swingline electronic stapler, and it staples about twenty pages without a problem. Most people find it very helpful in getting the job done. Known problems include paper jams, but this mostly occurs when you think you can staple a stack of papers that is thicker than the actual opening of the stapling apparatus. It is also moderately loud, but nothing you can't get used to. So…the big question people ask us at SSC is, "Where can I buy one of these?" For you stapler-lusters out there, here is a handy list of places you can get it:

Shoplet.com: $78.48

http://www.shoplet.com/office/db/SWI50201.html

Lycos.com or Officedepot.com: $81.99
