

How do I delete a page from the KB?

If you are logged in, you should be able to delete any pages you have written. For other pages, please do not change the title or the content, but add TO BE DELETED as a tag and to the top of the page, with an explanation if necessary. That way it's easy to see what's being deleted.

Then email help@ssc.ucla.edu and give the link to the page(s) you want deleted.

Revision #3
