

How to Create a Portlet in JIRA

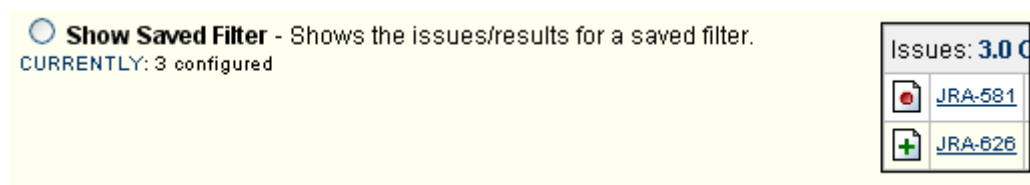

1. Sign on to JIRA. (<https://jira.ats.ucla.edu/>)
2. Turn configure on.

3. Click on Add a Portlet.

4. Find Show Saved Filter click on it.

5. Click on Add.
6. Click select filter.

Filter: [Select Filter...](#)
Filter to be shown

Number of issues:
Number of issues to be displayed

Show Description: 
Should the description be shown under the name in the portlet

7. Pick the filter you want to add to your home page (ie: On PROD, On STAGE, On TEST, etc)

8. Click on Save.

9. After saving, turn configure off.
