

Inserting a Macromedia flash animation into a Powerpoint presentation

One easy way to insert a flash animation into Powerpoint is to install Shyam's Toolbox. It contains an easy to use Flash Movie Wizard, and lets you insert flash with a couple of simple mouse clicks.

Shyam's Toolbox download link and instructions:

<http://skp.mvps.org/toolbox/download.htm>

Note: Make sure that the security level of Powerpoint is set to Medium or lower, or the toolbox will not install.
