Removing multiple versions of Adobe Flash

Multiple versions of Adobe Flash may show in some browsers.

Firefox as an example:

Mozilla Support

This may be fixed by removing older versions of the plugin in the Flash player installation folder (NPSWF32) and possibly (re)install the latest Flash player.

- (32 bit Windows) C:\Windows\System32\Macromed\Flash\
- (64 bit Windows) C:\Windows\SysWOW64\Macromed\Flash\
