Interviews with Martin Dougiamas, Moodle Architect

In my attempts to start “thinking in Moodle” I thought it might be interesting to search for interviews with the originator and guiding hand of Moodle, Martin Dougiamas. Here’s what I’ve found so far.

- 23 Oct 2006 http://www.stevehargadon.com/2006/10/interview-with-martin-dougiamas.html
- 19 Oct 2006 http://edtechlive.wikispaces.com/Recordings+List *(not direct link, need to look for Dougiamas on list)*
- 9 Nov 2005 http://technosavvy.org/?p=329 or http://techtalk.sde.idaho.gov/mod/resource/view.php?inpopup=true&id=250

I haven’t listened to these yet, so if you do, please add the length, and any summary of each here, if you can. Of course, please add any others you find.
