

Two Turnitin IDs for one user

A student was getting this error message when she tried to submit her assignment to the Turnitin Activity on the CCLE class site:

*"Uploading user information failed because user email was changed to an address that is already associated with an account. UID: *****- Old Email" *****@ucla.edu - New-Email" *****@g.ucla.edu."*

Note that the upload will fail for both the student and the instructor as both face same issue.

Try contacting Turnitin support by reading <http://ucla.in/2bjuGGE>

Revision #16
