Is the cost of licenses to protect sensitive data by encrypting the disk paid by the campus?

Yes. The campus IT security group has chosen PGP full disk encryption and related tools for this purpose. All campus entities with a need to protect their sensitive data and data coverd in campus Policy 404 (Data including Personal Information) are entitled to use the available tools at no cost to the department or the individual.
Contact your IT department or your IT Compliance Coordinator on how to start protecting your data. For more information visit: www.appliedsecurity.ucla.edu.
