Google's new web browser Chrome

Google’s open-source web browser Chrome now has 40% to 60% of the market.

It’s available for download at http://www.google.com/chrome

Take a full page screenshot in Google Chrome

Download the extention “Awesome Screenshot: Capture & Annotate”

https://chrome.google.com/webstore/detail/alelhddbbhepgpmgidjdcjakblofbmce

This will add an icon in your Google Chrome toolbar that allows you to capture screenshots and annotate them easily.

Take screenshots of:

- the visible part of the page
- a selected area
- the entire page

Chrome for Enterprise

For standardized deployment Google does offer Chrome for enterprises—
