

Direct IP Printing from OS X

This document provides a step-by-step set of instructions on how to add a printer to Apple OS X using direct IP Printing.

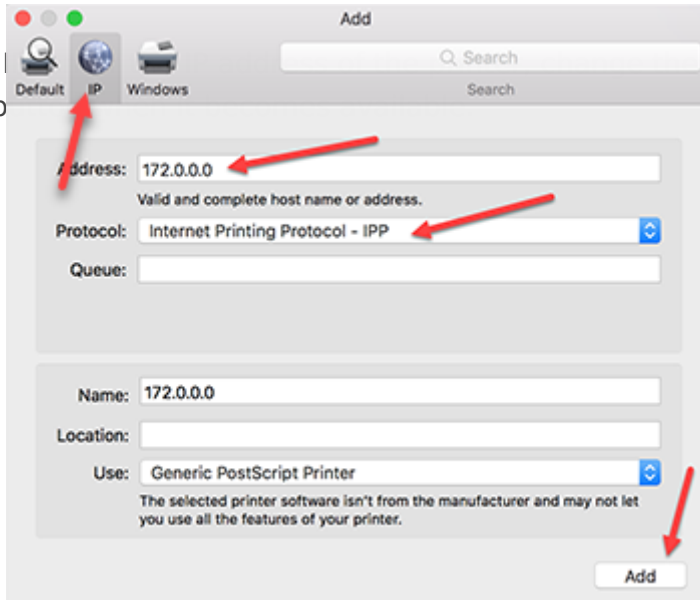

Open **System Preferences** and click on **Printers & Scanners**.

On the **Printers & Scanners** window, click the **+** sign to add a new printer.

Click **IP** under the **Add** tab. Select **Internet Printing Protocol - IPP** as the protocol to IP Printing Protocol. Click on the **Add** button.

Your computer is now connected to the printer
