← Add Printer

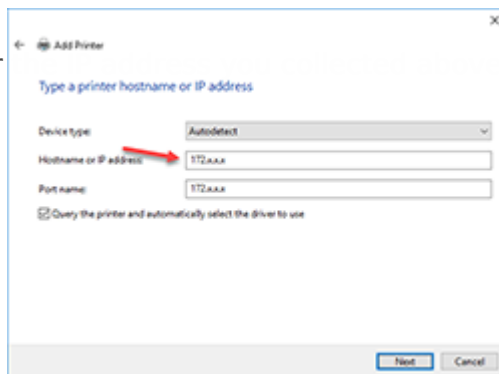

Select Find a printer by other options hostname.

- ☐ My printer is a little older. Help me find it.
- ☐ Select a shared printer by name

Example: \\computername\printername or
http://computername/printers/printername/printer
- ☒ Add a printer using a TCP/IP address or hostname
- ☐ Add a Bluetooth, wireless or network discoverable printer
- ☐ Add a local printer or network printer with manual settings

Enter in the *Hostname or IP Address* field.

Windows should find the printer if the printer is on and configured correctly. You may have to specify more information. If prompted, Select the type of network adapter installed in the printer in the "Device Type" drop-down list. You can also click "Custom" to specify custom settings for the network printer. Select "Next". Windows will now walk you through installing the drivers for the printer.

When you click Next, you will be prompted to enter a name for the printer.

← Add Printer

Type a printer name

Printer name: HP LaserJet M533x

This printer will be installed with the Canon iR-ADV C520/C530S Class Driver driver.
