

# grep tricks

I've been using *grep* (Global Regular Expression Print) to search files on Unix for years and never knew you could have it appear in color. And here are some other interesting articles about *grep*.

- <http://unstableme.blogspot.com/2009/03/highlight-match-with-color-in-grep.html>
- <http://opensourcehacker.com/2012/05/29/power-searching-using-unix-grep/>
- <http://eriwen.com/tools/grep-is-a-beautiful-tool/>
- <http://www.itworld.com/operating-systems/364065/unix-groping-through-big-data-grep>

<http://regexr.com/> is an online tool to learn, build, & test Regular Expressions.
