Apple iOS Device Management Resources

Managing iOS Devices Seminar

- Date: Wednesday, August 11th
- Time: 11am – 1pm
- Location: Ackerman Union, 2nd Floor Lounge

During this seminar, you will learn how to manage multiple iOS devices, which include: iPhone, iPod Touch, and iPad. We will review enterprise options like: VPN, Exchange, Device Security, and more. Also how to use Apple's iPhone Configuration Utility v3.0 to mass deploy devices with these options and custom configure each device.
