

How can faculty or TAs see pictures of the students enrolled in their classes?

This is now available through MyUCLA's class roster feature. Log into MyUCLA and go to Classes. Click the Roster link and there will be a camera icon next to each student. Click on this icon to view a picture of that student.

There is also a Photo Roster link on the main roster page. Click here to download a PDF file containing the pictures, names, UIDs and majors of the students in the class. This file can have either 30 or 6 students per page.

If there are any questions about this new feature, please contact the Undergraduate Education Information Technology Help Desk at 310-206-4525 or myucla@college.ucla.edu.

Revision #1
