How can faculty or TAs see pictures of the students enrolled in their classes?

This is now available through MyUCLAâ™s class roster feature. Log into MyUCLA and go to Classes. Click the Roster link and there will be a camera icon next to each student. Click on this icon to view a picture of that student.

There is also a Photo Roster link on the main roster page. Click here to download a PDF file containing the pictures, names, UIDs and majors of the students in the class. This file can have either 30 or 6 students per page.

If there are any questions about this new feature, please contact the Undergraduate Education Information Technology Help Desk at 310-206-4525 or myucla@college.ucla.edu.
