

Dell Laptop Battery Recall

If you have a Dell laptop model:

- Latitude: D410, D500, D505, D510, D520, D600, D610, D620, D800, D810
- Inspiron: 500M, 510M, 600M, 700M, 710M, 6000, 6400, 8500, 8600, 9100, 9200, 9300, 9400, E1505, E1705
- Precision: M20, M60, M70, M90
- XPS: XPS, XPS Gen2, XPS M170, XPS M1710

purchased between April 2004 and July 2006 please remove the battery and check the serial number. Potentially affected batteries under rare conditions can overheat and could pose a risk of fire.

If your model is included in the recall please go to this url:

[Dell Battery Program](#)

Dell has step by step instructions on how to verify if your battery needs to be replaced.
