

SAML

- **SAML** Security Assertion Markup Language http://www.oasis-open.org/committees/tc_home.php?wg_abbrev=security Albert Wu suggested we look at this for Authorization Service instead of creating our own xml and schema.
 - OpenSAML <http://www.opensaml.org/faq.html> C++ and Java sample clients.
 - Albert Wu - Here is a quick set of slides explaining at a very high level some of the security related XML schemas (including SAML) out there...
