

Can you recommend good child care options in various neighborhoods around LA?

For faculty and staff with dependent children who are new to UCLA, finding child care in a new city can be challenging. If you are satisfied with your child care arrangements and are willing to share, please consider the following questions:

- In what part of LA or the surrounding cities do you live?
- What days and hours is your child care provider open?
- Does your child care provider offer flexible enrollment (half days or full days, 2-3 days per week vs. all 5 days, etc.)?
- Is there anything in particular that you feel makes your child care provider exceptional?
- Please share the website for your child care provider if they have one.

One UC option is:

- <http://www.sittercity.com./universityofcalifornia>
- http://atyourservice.ucop.edu/employees/health_welfare/sittercity/
