

Event Spaces on Campus

The following is a list of the many event spaces that can be reserved on campus. If your event has audiovisual requirements, it's best to select a location with on-site equipment and staffing (as opposed to bringing in temporary equipment for the day).

Also please note that this data was collected in 2015 and some data may have changed. If so, please feel free to update this resource. For example, the new Luskin Center needs to be added.
