

# How do I reset my voicemail password for my campus phone?

The new method is now to send an email request to:

[vm@it.ucla.edu](mailto:vm@it.ucla.edu)

They will create a service now request. Once the request has been completed, the password will be reset to 8252 (UCLA).

For additional information, you can call the CTS Customer Service at x53775.
