

Is Gartner Research available at UCLA?

UCLA has an enterprise-wide Gartner membership that is co-funded by AGSM, AIS, CTS, the Library, and OIT. Among the benefits of this membership is the right for UCLA faculty, staff and students to access Gartner research documents.

We are pleased to announce that UCLA and Gartner have integrated the Gartner Research Portal with UCLA's Web Single Sign-on system. UCLA faculty, staff, and Students are now able to sign into the Gartner Portal to access eligible Gartner research using their UCLA Logon ID.

With the new integrated portal, users are able to access Gartner.com from anywhere without the need to VPN into the UCLA campus. There is also no need to create Gartner-specific accounts.

The service is now available at: <https://gartner.ucla.edu>
