

# At UCLA, how can I filter spam?

The methods you have available to filter unwanted email will depend on your campus email provider.

The following is a *hopefully growing* list of campus email providers and how to use their spam filters.

## **Bruin Online**

For users with @ucla.edu email addresses, refer to [BOL's help pages](#) for assistance.

## **School of Arts and Architecture**

For users with @arts.ucla.edu email addresses, refer to the [UCLArts intranet](#)

## **Social Sciences**

For users of Social Sciences Computing's email (@econ.ucla.edu, @history.ucla.edu, @polisci.ucla.edu, @geog.ucla.edu, see [complete list here](#)) you can take advantage of our commercial spam-blocking system [Barracuda](#).

## **Enterprise Messaging (EM)**

For users and departments with @em.ucla.edu & other EM email addresses, refer to [EM's help pages](#) for assistance.
