Committee on IT Infrastructure (CITI)

The Committee on IT Infrastructure (**CITI**) is appointed by the Executive Vice Chancellor on behalf of the Deans and Vice Chancellors. Members of the committee are academic and administrative directors responsible for business and fiscal aspects of IT applications and infrastructure. The Committee is responsible for strategic and tactical planning, operational policy, and business and cost allocation models. It originated as the Enterprise Computing Committee (ECC) bringing together the Vice Chancellors involved with Information Systems Transitional Infrastructure Plan (ISTIP) funding and projects.
