

Is there a program that allows for training of statistical software?

The UCLA Institute for Digital Research and Education (IDRE) offers a statistical computing program provides UCLA researchers with assistance in applied statistics, data analysis and statistical computing issues. The goal is to help UCLA researchers solve their problems in statistical computing while helping them enhance their skills for performing excellent research. In addition, our online resources are available for researchers and statistical consulting centers around the world.

You can found out more about the Statistical Computing Program here: <https://idre.ucla.edu/stats>
