

Microsoft TechEd Sessions

Videos & Slides

Microsoft provides TechEd session resources for those who have been unable to attend, and as a review mechanism for those who did. Videos are in a wide variety of ready to use formats—including MP3 only for music players—and slide decks are frequently made available, as well.

" TechEd provides the most comprehensive technical education across Microsoft's current and soon-to-release suite of products, solutions and services. "

" Year after year, technology professionals flock to Microsoft TechEd North America to immerse themselves in more than 1,000 learning opportunities that cover an unparalleled breadth and depth of Microsoft technologies. TechEd is an opportunity to get away from all the distractions at the office and really surround yourself in the technologies that are relevant to you and your business. "

Following are the North America events, but the event is held in other regions of the world—

- [Tech-Ed North America 2013](#)
- [Tech-Ed North America 2012](#)
- [Tech-Ed North America 2011](#)
- [Tech-Ed North America 2010](#)
- [Tech-Ed North America 2009](#)
- [Tech-Ed North America 2008](#)
